

SYSTEM AND METHOD FOR MANAGEMENT
OF DEBT DEFAULT INFORMATION

ABSTRACT OF THE DISCLOSURE

5 A system and method for management of debt default information is disclosed. The system comprises a debt default database for storing a plurality of records, each record having data associated with a defaulted loan; a certified
10 numbering module operable to generate a plurality of unique certified numbers, each certified number including an identifier of a lender of the defaulted loan and an identifier of the service provider, the certified numbering module further operable to assign each of the plurality of unique certified numbers to respective ones of the plurality of records; and a document creation module operable to create
15 correspondence to be communicated to debtors associated with the defaulted loans using the assigned unique certified numbers.
